

## NOTICE OF STUDY COMMENCEMENT

### Creemore Water and Wastewater Master Servicing Plan

### Township of Clearview

#### The Study

The Township of Clearview has initiated a Master Servicing Plan for Water and Wastewater Servicing in the Village of Creemore. The Master Plan will coordinate, initiate, compile, and analyze the required studies from various sources, resulting in recommendations that will not only respond to a variety of development interests, but will also examine the long-term water and wastewater servicing needs for all stakeholders within the Community of Creemore and surrounding potential development opportunities.

#### The Process

The Study is being conducted in accordance with the requirements of Phases 1 and 2 of the Municipal Class Environmental Assessment, as outlined in the Municipal Engineers Association *Municipal Class Environmental Assessment Manual* (October 2000, as amended 2007, 2011 & 2015), which is an approved process under the *Ontario Environmental Assessment Act*. The Master Plan uses Approach 2, which will allow for all Schedule B projects identified in the completed Master Plan to proceed to detail design. The study will evaluate alternative solutions with consideration for the natural, cultural, technical and economic environment, and recommend preferred solutions in consultation with the public, Indigenous communities and regulatory agencies, documented for the public record. At the conclusion of the study, the Master Plan will be prepared for public review.

#### Input Invited

Consultation is important to this study. The Township of Clearview would like to ensure that anyone interested in this study has the opportunity to provide input into the planning and design of the project. To provide comment or to request additional information concerning this Study or if you would like to be added to the Project Contact List to receive future project notices, please email the dedicated email address [CreemoreMP@rjburnside.com](mailto:CreemoreMP@rjburnside.com) or contact either of the following Project Team members:
