TERMS AND CONDITIONS

- Consent is given to the Township of Clearview and Nottawasaga Valley Conservation Authority, its employees and authorized representatives to access the property for the purposes of obtaining information and monitoring any approved construction.
- Permits granted by the Township of Clearview or Nottawasaga Valley Conservation Authority are not transferable.
- Approvals, permits, etc. may be required from other agencies prior to undertaking the work proposed. Authority permission, if granted for the proposed work, does not exempt the owner/agent from complying with any or all other approvals, laws, statutes, ordinances, directives, regulations, etc. that may affect the property or the use of same.
- Should the information provided on or with this application be untrue or incorrect, or become untrue or incorrect, the Township of Clearview and Nottawasaga Valley Conservation Authority reserve the right to withdraw any permission granted.
- Permits contain important conditions, contractors must have a copy of the permit on-site at all times.
- In submitting this development application and supporting documentation the applicant, hereby
 acknowledges and provides consent in accordance with the provisions of the Municipal Freedom of
 Information and Protection of Privacy Act that the information on this application and any supporting
 documentation provided by the applicant, agents, consultants and solicitors, will be part of the public
 record and will also be available to the general public.

Your application must be accompanied with the following

- A Location or road map to your development.
- A legal survey.
- Payment of the processing fee.
- A copy of any studies undertaken for the work (example: Environmental Impact Study, soil samples, well records, flood-line study, slope stability study, Fisheries Impact Assessment).
- A plan view (birds eye view of the land) showing the proposed works, your property boundaries and features of the site such as other buildings & structures, tree lines, streams, wetlands, wet areas, springs, ditches, culverts, elevation contours or existing and proposed grades (if available). Include measurements and dimensions. Show how much vegetation or tree cover is to be removed and where fill is to be placed.

The following may also be required to support your application (as determined by the Township or Conservation Authority) and will speed up the time it takes to review your application.

- A cross section (what the work will look like from the side). Your consultant or contractor can shoot the grades of the work site with a survey leveling instrument
- A topographic survey tied into a geodetic benchmark or based on a known ground elevation would be very helpful, and may be requested for some types of works.
- A written description or drawings showing the materials to be used and the proposed specifications, measurements or sizes of things such as culverts or rock protection.
- Concept, architectural or design drawings of the proposed building(s) (if available).

- A copy of any studies undertaken for the work (example: Environmental Impact Statement, Soil samples, Well records, Flood-line study, Slope stability study, Fisheries Impact Assessment).
- Photographs are very helpful (example: pictures of the watercourse's bottom and banks).
- The location and extent or perimeter of all proposed works should be staked out or flagged or marked in some way so we can easily locate it on your property when we visit.
- A written description or diagrams of how the work is to be done and how the site will be accessed by heavy equipment.
- Prepare plans or describe how sediment and erosion will be controlled during construction and for the period after construction until vegetation is established.
- Prepare plans or describe how the site is to be re-vegetated after construction, such as sod, seeding, hydro-seeding, tree & shrub plantings.
- Copies of drainage agreements (if required).
